<ul style="list-style-type: none"> • Enough Anaglypta wallpaper. • Utility Knife • Straightedge • Marker • Long bristle brush • Clay base Adhesive 	<ul style="list-style-type: none"> • High Quality Latex Paint • Safety Gloves and Goggles • Foam Roller and regular Wallpaper and painting tools • Bucket and sponges • Level
--	--

General application instructions for Wallcoverings.

- With a chalk line snap the wall where the Anaglypta will be placed on.
- Let the Anaglypta to lay out for a few minutes so that it uncoils nicely.
- Anaglypta might need to be cut at the desired height. Height is normally 32” to 36” up the wall which is about 1/3 of the wall’s height. It could also be used for wainscoting application.
- Once ready, roll or brush evenly the adhesive onto the back.
- Fold the edges over each other to join them (BOOKEND).
- Distribute the glue underneath with a long-bristled brush.
- Use a Foam Roller to put some pressure on the paper. Do not crush it.
- Wipe any excess of glue away with a damp sponge.
- Use a Chair Rail moulding such as our (RPS-0298) for a beautiful look.

Painting.

Use a high quality latex painting. You could use a 2 tone style to enhance the appearance of the wall if needed.
